# Top Release

“RadWulf 's breakthrough release “Better” delivers a vibrant deep-house and electro-pop vibe in collaboration with rising international artist Zusebi. This strong release by Germany based Label “Future House Cloud” brought even more traction to RadWulf’s 2023 “Year of the Wulf” campaign.

# Love

As legend has it... RadWulf was once an infamous Space Pirate who traversed the galaxies of the future and partied through the cosmos.

On his final expedition, RadWulf's starship was sucked into an arcane vortex, sending him back in time and leaving him stranded here on planet Earth with no way back home. RadWulf decided to steal all of the popular music of the future and release it here as his own.

It is said that RadWulf now spends each new day traveling the globe looking for new exploits to embark, new festivals to perform, and a new crew of Space Pirates to join him on his journey back home to Deep Space.
